

50 Years of Reliability

For 50 years, Tohatsu has been building some of the most reliable outboards in the world. Used today in over 100 countries for pleasure, fishing and commercial applications, Tohatsu has only one objective and it excels at it: reliability.

Ask anyone who knows outboards - even our competition - and they'll say the same thing. They'll tell you Tohatsu devotes all of its resources to building motors with the single best quality an outboard can have, reliability.

Technology for the Next Generation.
